

Welcome to the ADAC Fahrsicherheitszentrum Berlin-Brandenburg!

Trainings, Events and more ...

Since October 30, 2002 we have provided driving safety trainings and events for every type of drivers – of passenger cars, motorbikes, transporters, trucks, buses and off-road vehicles. For beginners or professionals, young or old, we offer various courses for all kinds of participants. Avoiding suddenly appearing water obstacles, mastering extreme driving situations on our handling track or stabilising a swerving vehicle – our visitors learn to sensitise their perception of dangerous situations and to improve their personal driving behaviour in extreme situations.

An ideal training site ...

With the new ADAC Fahrsicherheitszentrum in Linthe a new generation of driving safety centres has developed in Germany. With 25 hectares in total, 6 km of tracks, 14 driving modules and 4 hydraulic dynamic plates we are the biggest and most modern facility of this kind in Europe. The combination of the factors size, technology, modernity and customer service make our centre a unique place to organise trainings and events all about driving safety.

Apart from classical trainings modules, our customers have access to a large off-road site (3.5 ha), a youth road safety school and a kart track. Under consideration of these facts our training site is an ideal place to train safety skills and amuse oneself at the same time.

Partner for your events ...

The ADAC Fahrsicherheitszentrum provides an attractive setting for active driving events. Three professional and experienced teams will support you:

The team of trainers:

Professional ADAC trainers see to a perfect implementation of trainings for all kinds of trainings courses and target groups. With many years of experience they can enthuse any individual participant even when there are hundreds of them.

The event team:

Organizing vehicles, catering, hotel reservations or a supporting programme – we support you as a full-service agency with many years of experience.

The catering team:

Our in-house catering service means first-class catering for our visitors – be it a classic buffet, a formal dinner or, if the event permits it, an unusual midnight snack.

We will welcome you in our main building ...

As it befits Europe's largest and most modern site, we also have a representative building and, in our case, a multifunctional one at that. Here you can organise product presentations, incentives and events of any size. Seminar rooms and presentation halls equipped in a modern manner provide further and flexible opportunities for corporate or product trainings.

Your corporate design ...

You will be able to present your company as well. You will find various means of advertising e.g. house- or container banners, flagpoles and plasma screens.

Experience it is ...

Whether you are a private or corporate customer, want trainings or events – we in advance promise you this: You will have a fascinating day at Europe's most modern driving safety centre. Look forward to it!

Near Berlin ...

The facility is in Linthe, approx. 35 minutes south of Berlin, at the motorway A9 to Leipzig. The distance from Potsdam is about 25 minutes by car.
